About this class

"Awakening The Mind Through Music"™

Ages 2 to 5 (45 minutes class)

This unique class involves a minimum of four students. Early classes on music enhance children's natural creative impulses, helping them to develop the skills they need in order to communicate, concentrate, coordinate, cooperate and express themselves fully. Through songs, movements and playing musical games, the goal is to awaken the full creative and intellectual potential in each child. Parents or caregivers are required to sit in the classroom during class.
